**SECTION 1: PRODUCT AND COMPANY IDENTIFICATION**

**MANUFACTURER:** ERA  
**ADDRESS:** 16341 Table Mountain Parkway  
Golden, CO, 80403 U.S.A.  
**BUSINESS PHONE:** 303-421-8454  
**FAX:** 303-421-0159  
**EMAIL:** info@eraqc.com  
**CHEMICAL EMERGENCY PHONE:** 352-535-5053 (INFOTRAC)

**Product Name(s):** RadCheM™ NaturalS™  
**Catalog / Part Number(s):** 751, 811, 811AL1-4  
**MSDS Creation Date:** November 22, 2005  
**Revision Date:** July 19, 2012

**SECTION 2: HAZARDS IDENTIFICATION**

Irritant. Ingestion may cause severe damage to digestive tract. The matrix of the standard is a nitric acid/water mixture which is classified as dangerous by Directive 199/45/EC. Use only as directed and in accordance with good laboratory practices. Use only as directed and in accordance with good laboratory practices.

Notes: Standard is manufactured in a nitric acid (≤0.5%) and water (≥99.5%) mixture. These standards contain small (trace) quantities of radioactive material. These samples are designed for use only in a radiochemistry facility experienced in the handling of radioactive materials. All appropriate precautions for the handling of radioactive materials should be in place at all times. Decay products for some of the radionuclides listed are also radioactive. These decay products are present in different stages of equilibrium with their parent nuclide and are not accounted for in the component listing.

Although not all of these radioisotopes are classified by official agencies (OSHA, NTP, IARC), all radioactive materials may increase the risk of cancer if improperly handled. Considered Non-Hazardous under OSHA 1910.1200 (HazCom) as product contains no known or potential carcinogens in excess of 0.1% of the composition nor any other hazardous chemical in excess of 1% of the composition.

Material Use: Analytical reagent or certified reference material used in laboratories. Uses also include research and development.

**SECTION 4: FIRST-AID MEASURES**

Inhalation: Remove to fresh air.  
Skin Contact: Wash thoroughly after handling.  
Eye Contact: Immediately flush with water for a minimum of 15 minutes.  
Ingestion: Get medical attention.  
After following first aid measures, seek medical attention.

**SECTION 5: FIRE-FIGHTING MEASURES**

Flammable Properties: Not flammable.  
Extinguishing Media: Dry chemical, carbon dioxide or appropriate foam.  
Unique Aspects Contributing To a Fire: None.  
Special Fire Fighting Procedures: None.  
Note: As in any fire, wear self-contained breathing apparatus, and full protective gear.

**SECTION 6: ACCIDENTAL RELEASE MEASURES**

Neutralize and flush with water or neutralize and absorb. Follow appropriate radioactive contamination control and cleanup procedures.

**SECTION 7: HANDLING AND STORAGE**

Handle in accordance with good laboratory practices. Store in a dry well-ventilated place. This product is intended for use only by people trained in the safety and handling of chemicals and laboratory preparations.

**SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION**

Handle in accordance with good laboratory practices. Wash thoroughly after handling.  
Respiratory Protection: Not normally needed. If exposure limits are exceeded, use approved respirator.  
Eye Protection: Safety glasses with side shields or safety goggles.  
Skin Protection: Neoprene or other chemical resistant gloves.  
Engineering Controls: Not normally needed. If exposure limits are exceeded, work in a fume hood.

SECTION 10: STABILITY AND REACTIVITY

Hazardous Polymerization: Will Not Occur  __X__ May Occur

Stability: Stable  __X__ Unstable  ____

Hazardous Decomposition/Combustion Products: May generate hydrogen on exposure to metals.

Conditions and Materials to Avoid: Heavy metals.

SECTION 11: TOXICOLOGICAL INFORMATION

Primary Route(s) of Exposure Under Normal Use: Eyes, skin, mucous membranes or lungs.

Target Organ(s): NA

Acute Effects: May burn any tissue and cause blindness, GI tract perforation cough, or pulmonary edema, or methemoglobinemia. The above health hazard is based on the acid content of this product. This standard contains small quantities of radioactive material. These materials do not present a hazard due to direct toxic effects, but do present a small hazard due to radioactivity, especially if taken into the body. This sample is designed for use only in a radiochemistry facility experienced in the handling of radioactive materials. All appropriate precautions for the handling of radioactive materials should be in place at all times.

Chronic Effects: Asthma

Other Information: Chemical Ingredient(s) not classified as carcinogen(s) by OSHA, IARC, NTP, ACGIH, or California.

SECTION 12: ECOLOGICAL INFORMATION

No information available on this preparation or mixture. By complying with sections 6 & 7 there will be no release into the environment.

SECTION 13: DISPOSAL CONSIDERATIONS

To determine proper disposal, consult applicable federal, state and local environmental control regulations.

SECTION 14: TRANSPORT INFORMATION

Shipment Name/Type: Nitric acid
UN Number: 2031  Shipping/Hazardous Class: 8  Packing Group: II
Shipping regulations are based on combinations of criteria such as quantity, class and packaging according to DOT, IATA and (49) CFR.

SECTION 15: REGULATORY INFORMATION

Irritant (Xi) concentration is <5%; Uranium is Toxic (T).
EU Risk Phrases: Irritating to eyes and skin [R36/38]; Uranium is well below regulated amount. Listed are Phrases for Uranium: Very toxic by inhalation & if swallowed [R 26/28]; Danger of cumulative effects [R 33]; May cause long-term adverse effects in the aquatic environment;

U.S. TSCA: Listed
Canada: This product has been classified according to the hazard criteria of the CPR and this MSDS contains all the information required by the CPR.

SECTION 16: OTHER INFORMATION

United States EPA Regulatory Information: SARA 313: Yes  NFRP: Health: 3  Flammability: 0  Reactivity: 0
CERCLA RQ: 1000 lbs  HMIS Rating: Health: 3  Flammability: 0  Physical Hazard: 0
