Notes: Standard is manufactured on a glass fiber filter. These standards contain small (trace) quantities of radioactive material. These materials do not present a significant hazard due to direct toxic effects, but do present a small hazard due to radioactivity, especially if taken into the body. These samples are designed for use only in a radiochemistry facility experienced in the handling of radioactive materials. All appropriate precautions for the handling of radioactive materials should be in place at all times. Decay products for some of the radionuclides listed are also radioactive. These decay products are present in different stages of equilibrium with their parent nuclide and are not accounted for in the component listing.

Although not all of these radioisotopes are classified by official agencies (OSHA, NTP, IARC), all radioactive materials may increase the risk of cancer if improperly handled. Considered Non-Hazardous under OSHA 1910.1200 (HazCom) as product contains no known or potential carcinogens in excess of 0.1% of the composition nor any other hazardous chemical in excess of 1% of the composition.

**Material Use:** Analytical reagent or certified reference material used in laboratories. Uses also include research and development.

**SECTION 4: FIRST-AID MEASURES**

**Inhalation:** Remove to fresh air.  
**Eye Contact:** Immediately flush with water for a minimum of 15 minutes. After following first aid measures, seek medical attention.

**Skin Contact:** Flush with water.  
**Ingestion:** Get medical attention.

**SECTION 5: FIRE-FIGHTING MEASURES**

**Flammable Properties:** Not flammable.  
**Extinguishing Media:** Dry chemical, carbon dioxide or appropriate foam.

**Unique Aspects Contributing To a Fire:** None.  
**Special Fire Fighting Procedures:** None.

**Note:** As in any fire, wear self-contained breathing apparatus, and full protective gear.

**SECTION 6: ACCIDENTAL RELEASE MEASURES**

Neutralize and flush with water or neutralize and absorb. Follow appropriate radioactive contamination control and cleanup procedures.

**SECTION 7: HANDLING AND STORAGE**

Handle in accordance with good laboratory practices. Store in a dry well-ventilated place. This product is intended for use only by people trained in the safety and handling of chemicals and laboratory preparations.
## SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

Handle in accordance with good laboratory practices. Wash thoroughly after handling.

**Respiratory Protection:** Not normally needed. If exposure limits are exceeded, use approved respirator.

**Eye Protection:** Safety glasses with side shields or safety goggles.

**Skin Protection:** Neoprene or other chemical resistant gloves.

**Engineering Controls:** Not normally needed. If exposure limits are exceeded, work in a fume hood.

## SECTION 11: TOXICOLOGICAL INFORMATION

- **Primary Route(s) of Exposure Under Normal Use:** Eyes, skin, mucous membranes or lungs.
- **Target Organ(s):** NA
- **Acute Effects:** May burn any tissue and cause blindness, GI tract perforation cough, or pulmonary edema, or methemoglobinemia. The above health hazard is based on the acid content of this product. This standard contains small quantities of radioactive material. These materials do not present a hazard due to direct toxic effects, but do present a small hazard due to radioactivity, especially if taken into the body. This sample is designed for use only in a radiochemistry facility experienced in the handling of radioactive materials. All appropriate precautions for the handling of radioactive materials should be in place at all times.
- **Chronic Effects:** Asthma
- **Other Information:** Chemical Ingredient(s) not classified as carcinogen(s) by OSHA, IARC, NTP, ACGIH, or California.

## SECTION 12: ECOLOGICAL INFORMATION

No information available on this preparation or mixture. By complying with sections 6 & 7 there will be no release into the environment.
