EMERGENCY OVERVIEW

Danger! The toxicological properties of this material have not been fully investigated. Causes burns by all exposure routes.  
Target Organs: Kidneys, liver, respiratory system, eyes, skin.  

Potential Health Effects  
Eye: Causes eye burns.  
Skin: Causes skin burns. May cause skin discoloration.  
Ingestion: Causes gastrointestinal tract burns.  
Inhalation: May cause liver and kidney damage. Causes chemical burns to the respiratory tract.  
Chronic effects include excessive calcification of the bones, ligaments, and tendons. Chronic inhalation or  
Chronic: ingesrion of silver salts may cause argyria characterized by a permanent blue-gray discoloration of the eyes, skin, mucous membranes, and internal organs. This malady results from the accumulation of silver in the body.  

Section 4 - First Aid Measures
Eyes: Immediately flush eyes with plenty of water for at least 15 minutes, occasionally lifting the upper and lower eyelids. Get medical aid.

Skin: Get medical aid. Immediately flush skin with plenty of water for at least 15 minutes while removing contaminated clothing and shoes.

Ingestion: Get medical aid immediately. Do NOT induce vomiting. If conscious and alert, rinse mouth and drink 2-4 cupfuls of milk or water.

Inhalation: Remove from exposure and move to fresh air immediately. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Get medical aid.

Notes to Physician: Treat symptomatically and supportively.

Section 5 - Fire Fighting Measures

General Information: As in any fire, wear a self-contained breathing apparatus in pressure-demand, MSHA/NIOSH (approved or equivalent), and full protective gear. During a fire, irritating and highly toxic gases may be generated by thermal decomposition or combustion.

Extinguishing Media: Use foam, dry chemical, or carbon dioxide. Reacts with water to produce toxic and corrosive hydrogen fluoride.

Autoignition Temperature: Not applicable.
Flash Point: Not applicable.

Explosion Limits: Lower: Not available
Explosion Limits: Upper: Not available

NFPA Rating: health: 2; flammability: 1; instability: 1;

Section 6 - Accidental Release Measures

General Information: Use proper personal protective equipment as indicated in Section 8.

Spills/Leaks: Vacuum or sweep up material and place into a suitable disposal container. Clean up spills immediately, observing precautions in the Protective Equipment section. Avoid generating dusty conditions. Provide ventilation. Do not get water inside containers.

Section 7 - Handling and Storage

Handling: Minimize dust generation and accumulation. Do not get in eyes, on skin, or on clothing. Keep container tightly closed. Do not ingest or inhale. Store protected from light. Do not allow contact with water. Use only in a chemical fume hood.
